Hanford Mission Integrated Solutions Provisions

This Subcontract including all attachments thereto, embodies the entire agreement between the Subcontractor and the Buyer and supersedes all other writings. The parties shall not be bound by or be liable for any statement, representation, promise, or inducement or understanding not set forth herein.

NOTE, however, that because these General Provisions are provided during a period of contract transition between Mission Support Alliance, LLC and Hanford Mission Integrated Services, LLC (HMIS), some of the provisions and information herein are subject to change and/or are described as “To be determined and updated.” HMIS will revise and update these General Provisions to include updated provisions and information as they become available. HMIS reserves the right to modify and revise these General Provisions and/or other contract documents as necessary or appropriate, and Subcontractor acknowledges HMIS's right to do so.

1. This Subcontract or the solicitation for the same provides a different definition;
 2. The contracting parties agree to a different definition;

- C. When a contract clause herein, including a clause incorporated by reference, uses a word or term that is defined in the Department of Energy Acquisition Regulation (DEAR) (48 CFR chapter 9), the word or term has the same meaning as the definition in 48 CFR 902.101 or the definition in the part, subpart, or section of 48 CFR chapter 9 where the provision or clause was prescribed on September 20, 2018, unless this Subcontract or the solicitation for the same provides a different definition or the contracting parties otherwise agree to a different definition.

2.0 ORDER OF PRECEDENCE AND FLOWDOWN OF OBLIGATIONS

- A. In the event of a discrepancy among any of the Subcontract terms, conditions, clauses, provisions, written direction and instructions, and documents (collectively, the "Subcontract"), the following order of precedence shall govern resolution: (1) Buyer's written Subcontract modifications, direction, and instructions; (2) Subcontract form and clauses, including clauses incorporated by reference; (3) Special Provisions; (4) General Provisions; (5) Technical instructions, including the Statement of Work (SOW), drawings, exhibits and attachments, and applicable standards; and (6) other documents identified as being part of the Subcontract.
- B. Nothing recited above shall be construed as superseding or preempting any applicable statute, rule, ordinance, or regulation (collectively, the "applicable laws"). In the event of a conflict with applicable laws, the specific conflicting term of the Subcontract shall be considered null and without effect, and the

Hanford Mission Integrated Solutions Provisions

applicable laws shall govern. All remaining terms unaffected by said applicable laws shall continue in force.

- C.** Subcontractor binds itself to Buyer under this Subcontract in the same manner as Buyer is bound to DOE under the Prime Contract for the purpose of effectuating flowdown of obligations and rights under the Prime Contract, including provisions and clauses of the Federal Acquisition Regulation and/or supplemental agency regulations incorporated therein, to the extent necessary to give full effect to the same and preserve the rights of the Government under the Prime Contract. Subcontractor agrees that it shall so bind all lower-tier subcontractors. Subcontractor acknowledges that Buyer has made available all Prime Contract and Subcontract documents. Subcontractor shall make available to all lower-tier subcontractors all Subcontract and Prime Contract documents. In the event of a conflict between a provision or clause of this Subcontract and an obligation required to be flowed down to Subcontractor under the Prime Contract or other applicable law, the flowed-down obligation shall take precedence to the extent necessary to give full effect to the same and preserve the rights of the parties to the Prime Contract.
- D.** Subcontractor assumes toward Buyer all obligations and responsibilities which Buyer, under the Prime Contract, assumes toward the Government, insofar as applicable to this Subcontract. Buyer shall have the benefit of all contractual rights, remedies, and redress against Subcontractor that the Government, under the Prime Contract, has against the Buyer, insofar as applicable to this Subcontract.

3.0 SAFETY AND QUALITY STANDARDS

3.1 INSPECTION, TESTING AND QUALITY CONTROL

- A.** Subcontractor shall inspect all materials, supplies, and equipment which are to be incorporated in the work. In addition, Subcontractor shall conduct a continuous program of quality control for all work. When requested by the Buyer, Subcontractor's quality control program and inspection procedures for the foregoing shall be submitted in writing to Buyer for review and approval, in sufficient detail to delineate those items to be inspected and the manner in which they are to be inspected, and shall adequately describe all quality control activities contemplated, including provision for adequate documentation of Subcontractor's performance of such quality control and inspection.

Hanford Mission Integrated Solutions Provisions

- B.** Subcontractor shall, during the course of performance of the work hereunder, without additional compensation, make or cause to be made all tests required by this Subcontract. Buyer may require additional inspections and tests. Subcontractor shall furnish Buyer with satisfactory documentation of the results of all inspections and tests. Buyer shall be given not less than five (5) working days' notice of any tests to be made by Subcontractor or any of its lower-tier Subcontractors in order that Buyer may witness any such tests.
- C.** Buyer and the Government and their representatives, and others as may be required by applicable laws, ordinances, and regulations, shall have the right at all reasonable times to inspect the work and all material, supplies and equipment for the work. Subcontractor shall provide, or cause to be provided access and sufficient, safe, and proper facilities for such inspections. Neither the failure to make such inspection nor to discover defective workmanship, materials, or equipment, nor approval of or payment to Subcontractor for such work, materials or equipment shall prejudice the right of Buyer or the Government thereafter to reject or require the correction of defective Work in accordance with the provisions of the Subcontract.
- D.** If Subcontractor covers any portion of the work prior to any inspection or test provided for in the specifications, inspection schedule, or as previously requested by Buyer, the cost of uncovering and covering the work to allow for such inspection or test shall be borne by the Subcontractor. Buyer may order reexamination of any work. In the event of such reexamination, if any material, equipment, or any part of the work is determined by Buyer to be defective, Subcontractor shall not be reimbursed for uncovering, repair, or corrective and restoration costs. If such work is found to be in accordance with the Subcontract requirements upon such reexamination, Buyer shall pay Subcontractor the cost of uncovering and restoration.
- E.** Rejection by Buyer of any or all parts of defective work for failure to conform to this Subcontract shall be final and binding. Such rejected work shall be promptly corrected or replaced by Subcontractor at Subcontractor's expense. If Subcontractor fails to commence and diligently continue correction or replacement of such rejected work immediately after receipt of written notice from Buyer to correct or replace the rejected work, Buyer may at its option remove and replace

Hanford Mission Integrated Solutions Provisions

the rejected work, and Subcontractor shall promptly reimburse Buyer for the costs of such removal and replacement of defective work.

3.2 COUNTERFEIT FASTENERS AND COMPONENTS

Buyer reserves the right to question and/or require Subcontractor to certify and/or furnish proof regarding the quality, authenticity, application, or fitness for use of the items supplied by the Subcontractor under this Subcontract. Any items furnished as part of this Subcontract and which have been previously found by Buyer, the Department of Energy, or the Department of Commerce to be counterfeit or which are listed by the Department of Commerce to be suspect will be deemed, without more proof, to be subject to the above requirement of further proof or certification. Buyer also reserves the right to question the circumstances and make available a report of any such review to the Government. All costs associated with conducting inquiries into and reporting on fasteners and components determined to be counterfeit shall be recovered by Buyer from Subcontractor.

Suspect/counterfeit items pose potential threats to the safety of workers, the public and the environment, and may have a detrimental effect on security and operations at nuclear facilities. Therefore, any suspected counterfeit item identified by the Buyer or DOE will be retained by the Buyer and appropriately disposed of. Buyer will not return any suspected/counterfeit items to the Subcontractor. In addition, the Buyer will notify the DOE Inspector General of the supplied suspect/counterfeit items for any further investigation deemed appropriate.

3.3 CONDITIONS AND RISKS OF WORK

Subcontractor represents that it has carefully examined the drawings and specifications for the work and has fully acquainted itself with all other conditions relevant to the work, and its surroundings, and Subcontractor assumes the risk of such conditions and will, regardless of such conditions, the expense, difficulty of performing the work, or negligence, if any, of Buyer, fully complete the work for the stated Subcontract price without further recourse to Buyer. Information on the site of the work and local conditions at such site furnished by Buyer in specifications, drawings or otherwise is not guaranteed by Buyer and is furnished only for the convenience of Subcontractor.

Hanford Mission Integrated Solutions Provisions

4.0 PROGRESS OF WORK, STOPPAGE, WITHDRAWAL, AND TERMINATION

4.1 NOTICE OF COMPLETION AND FINAL ACCEPTANCE

- A.** When Subcontractor deems the work fully completed, including satisfactory completion of such inspections, tests, and documentation as are specified in this Subcontract (or in the release Scope of Work and/or testing and acceptance plan), Subcontractor shall, within ten (10) working days thereafter, give a written Notice of Completion of the work to Buyer, specifying the work completed and the date it was completed. Within thirty (30) calendar days after receipt of said Notice of Completion, Buyer may inspect the work and shall either reject the Notice of Completion and specify defective or uncompleted portions of the work, or shall give the Subcontractor a written Notice of Acceptance of the work either for the purpose of final payment only, or for the purposes of final payment and final acceptance.
- B.** In the event Buyer rejects the Notice of Completion and specifies defective or uncompleted portions of the work, Subcontractor shall within five (5) working days, provide for Buyer review and approval, a schedule detailing when all defects will be corrected and/or the work will be completed and shall proceed to remedy such defective and uncompleted portions of the work. Thereafter, Subcontractor shall again give Buyer a written Notice of Completion of the work, specifying a new date for the completion of the work based upon the date such defective or uncompleted portions of the work were corrected. The foregoing procedure shall apply again and successively thereafter until Buyer has given Subcontractor written Notice of Acceptance for purposes of final payment and final acceptance.
- C.** Any failure by Buyer to inspect or to reject the work or to reject Subcontractor's Notice of Completion as set forth above, shall not be deemed to be acceptance of the work for any purpose by Buyer nor imply acceptance of, or agreement with, said Notice of Completion.

4.2 STOP WORK

- A.** The Buyer may, at any time, by written order to the Subcontractor, require the Subcontractor to stop all, or any part, of the work called for by this subcontract for a period of ninety (90) days after the order is delivered to the Subcontractor, and for any further period to which the

Hanford Mission Integrated Solutions Provisions

parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Subcontractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Subcontractor, or within any extension of that period to which the parties shall have agreed, the Buyer shall either—

1. Cancel the stop-work order; or
 2. Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.
- B.** If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Subcontractor shall resume work. The Buyer shall make an equitable adjustment in the delivery schedule or subcontract price, or both, and the subcontract shall be modified, in writing, accordingly, if—
1. The stop-work order results in an increase in the time required for, or in the Subcontractor's cost properly allocable to, the performance of any part of this subcontract; and
 2. The Subcontractor asserts its right to the adjustment within thirty (30) days after the end of the period of work stoppage; provided that, if the Buyer decides the facts justify the action, the Buyer may receive and act upon the claim submitted at any time before final payment under this subcontract.
- C.** If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Buyer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.
- D.** If a stop-work order is not canceled and the work covered by the order is terminated for default, the Buyer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

Hanford Mission Integrated Solutions Provisions

4.3 REPORTING AND COORDINATION

- A.** During the performance of work, Subcontractor shall submit to Buyer periodic progress reports on the actual progress and updated schedules as may be required by this Subcontract or requested by Buyer. In the event Subcontractor's performance of the work is not in compliance with the schedule established for such performance, Buyer may, in writing, require the Subcontractor to submit its plan for schedule recovery, or specify in writing the steps to be taken to achieve compliance with such schedule, and/or exercise any other remedies under this Subcontract. Subcontractor shall thereupon take such steps as may be directed by Buyer or otherwise necessary to improve its progress without additional cost to Buyer. If within a reasonable period as determined by Buyer, Subcontractor does not improve performance to meet the currently approved schedule, Buyer may require an increase in Subcontractor's labor force, the number of shifts, additional days of work, and an increase in the amount of plant and equipment, all without additional compensation to Subcontractor. Neither such notice nor Buyer's failure to issue such notice shall relieve Subcontractor of its obligation to achieve the quality of Work and rate of progress of work required by this Subcontract. Failure of Subcontractor to comply with Buyer's instructions may be grounds for determination by Buyer that Subcontractor is not prosecuting the work with such diligence as will assure completion within the times specified and may be grounds for termination.
- B.** Subcontractor recognizes that Buyer, the Government, other Subcontractors, and lower-tier Subcontractors may be working concurrently at the jobsite. Subcontractor agrees to cooperate with Buyer, the Government and other Subcontractors and lower-tier Subcontractors so that the project as a whole will progress with a minimum of delays. Buyer reserves the right to direct Subcontractor to schedule the order of performance of its work in such manner as not to interfere with the performance of others. Subcontractor shall fully cooperate with the other subcontractors and with Buyer's employees. Buyer reserves the right to require Subcontractor to schedule the order of performance of the work to minimize interference with work of any parties involved.
- C.** If any part of Subcontractor's work is dependent upon the quality and/or completeness of work performed under another Subcontract, Subcontractor shall inspect such other work and promptly report to

Hanford Mission Integrated Solutions Provisions

Buyer any defects therein which render such work unsuitable for the proper execution of the work under this Subcontract. Failure to make such inspections or to report any such defects to Buyer shall constitute Subcontractor's acceptance of such other work as suitable to receive Subcontractor's work; provided however, that Subcontractor shall not be responsible for defects that could not have reasonably been detected.

4.4 DOE-H-2021 WORK STOPPAGE AND SHUTDOWN AUTHORIZATION (OCT 2014) (AMENDED)

- A. Imminent Health and Safety Hazard is a given condition or situation, which if not immediately corrected, could result in serious injury or death, including exposure to radiation and toxic/hazardous chemicals. Imminent Danger in relation to the facility safety envelope is a condition, situation, or proposed activity which, if not terminated, could cause, prevent mitigation of, or seriously increase the risk of (1) nuclear criticality, (2) radiation exposure, (3) fire/explosion, and/or (4) toxic hazardous chemical exposure.
- B. **Work Stoppage.** In the event of an Imminent Health and Safety Hazard, identified by facility line management or operators or facility health and safety personnel overseeing facility operations, or other individuals, the individual or group identifying the imminent hazard situation shall immediately take actions to eliminate or mitigate the hazard (e.g., directing the operator/implementer of the activity or process causing the imminent hazard to stop work, initiating emergency response actions or other actions) to protect the health and safety of the workers and the public, and to protect DOE facilities and the environment. In the event an Imminent Health and Safety Hazard is identified, the individual or group identifying the hazard should coordinate with an appropriate Subcontractor official, who will direct the shutdown or other actions, as required.
 - (i) Such mitigating action(s) should subsequently be coordinated with DOE and Buyer management. The suspension or stop-work order should be promptly confirmed in writing by Buyer's Representatives.
- C. **Shutdown.** In the event of an imminent danger in relation to the facility safety envelope or a non-Imminent Health and Safety Hazard identified by facility line managers, facility operators, health and safety personnel

Hanford Mission Integrated Solutions Provisions

overseeing facility operations, or other individuals, the individual or group identifying the potential health and safety hazard may recommend facility shutdown in addition to any immediate actions needed to mitigate the situation. However, the recommendation must be coordinated with Subcontractor management, Buyer, and the DOE Site Manager. Any written direction to suspend operations shall be issued by Buyer's Representatives, pursuant to the stop work provisions of this Subcontract.

D. *Facility Representatives.* DOE personnel designated as Facility Representatives provide the technical/safety oversight of operations. The Facility Representative has the authority to "stop work," which applies to the shutdown of an entire plant, activity, or job. This stop-work authority will be used for an operation of a facility which is performing work the Facility Representative believes:

- (a)** Poses an imminent danger to health and safety of workers or the public if allowed to continue;
- (b)** Could adversely affect the safe operation of, or could cause serious damage to the facility if allowed to continue; or
- (c)** Could result in the release of radiological or chemical hazards to the environment in excess of regulatory limits.

4.5 SUSPENSION OF WORK

- A.** The Buyer may order the Subcontractor, in writing, to suspend, delay, or interrupt all or any part of the work of this subcontract for the period of time that the Buyer determines appropriate for the convenience of the Buyer.
- B.** If the performance of all or any part of the work is, for an unreasonable period of time, suspended, delayed, or interrupted (1) by an act of the Buyer in the administration of this subcontract, or (2) by the Buyer's failure to act within the time specified in this subcontract (or within a reasonable time if not specified), an adjustment shall be made for any increase in the cost of performance of this subcontract (excluding profit) necessarily caused by the unreasonable suspension, delay, or interruption, and the subcontract modified in writing accordingly.

Hanford Mission Integrated Solutions Provisions

However, no adjustment shall be made under this clause for any suspension, delay, or interruption to the extent that performance would have been so suspended, delayed, or interrupted by any other cause, including the fault or negligence of the Subcontractor, or for which an equitable adjustment is provided for or excluded under any other term or condition of this subcontract.

- C. A claim under this clause shall not be allowed —
 - 1. For any costs incurred more than twenty (20) days before the Subcontractor shall have notified the Buyer in writing of the act or failure to act involved (but this requirement shall not apply as to a claim resulting from a suspension order); and
 - 2. Unless the claim, in an amount stated, is asserted in writing as soon as practicable after the termination of the suspension, delay, or interruption, but not later than the date of final payment under the subcontract.

4.6 WITHDRAWAL OF WORK

- A. The Buyer may, at its option and during the performance of this Subcontract unilaterally have any of the work contemplated in the Statement of Work of this Subcontract, performed by either another Subcontractor or to have the work performed by Buyer or its employees.
- B. Work may be withdrawn; (1) in order for Buyer to conduct pilot programs; (2) if the Subcontractor's estimated cost of the work is considered unreasonable; (3) for less than satisfactory performance by the Subcontractor; or (4) for any other reason deemed by the Buyer to be in the best interests of Buyer.
- C. If the withdrawn work has been authorized under an annual Work Authorization Directive, the work shall be terminated in accordance with FAR 52.249-6 Termination (Cost-Reimbursement).
- D. If any work is withdrawn by the Buyer, the Subcontractor agrees to fully cooperate with the new performing entity and to provide whatever support is required.

Hanford Mission Integrated Solutions Provisions

- E. Buyer and Subcontractor recognize that under the terms of the Prime Contract clause entitled “Withdrawal of Work” and FAR 52.243-2, Changes – Cost-Reimbursement, incorporated into the Prime Contract, DOE has the right to modify the Prime Contract Attachment entitled, *Hanford Site Services and Interface Requirements Matrix*. In order to minimize the impact on existing work being performed, DOE is obligated to negotiate with Buyer a reasonable Transition Period for each change in which a portion of the work is withdrawn from the Prime Contract and awarded or assigned to an entity other than Buyer. Buyer shall advise Subcontractor of any DOE withdrawal of work scope that impacts Subcontractor work scope and/or that results in the withdrawal of Subcontractor work scope. Subcontractor agrees to be bound by the decisions of DOE regarding withdrawal of work scope to the same extent Buyer is bound. Subcontractor shall similarly advise all lower-tier subcontractors of any DOE withdrawal of work scope that impacts lower-tier subcontract work scope and/or that results in the withdrawal of lower-tier subcontract work scope. Subcontractor shall require all lower-tier subcontractors to agree to be bound by the decisions of DOE regarding withdrawal of work scope to the same extent Buyer and Subcontractor are bound.

4.7 POSSESSION PRIOR TO COMPLETION

Buyer and/or the Government shall have the right to move into Subcontractor’s working and storage areas and the right to take possession of or use any completed or partially completed part of Subcontractor’s work as Buyer or the Government deem necessary for their operations. In the event Buyer or the Government desires to exercise the foregoing right, Buyer will so notify Subcontractor in writing. - (d)** Following Buyer's receipt of a timely written notice and statement of Claim, the parties shall negotiate diligently to reach an agreement, but in no case, except with Buyer's prior written consent, shall any work be halted pending such agreement, whether or not the Claim can be resolved to Subcontractor's satisfaction, and Subcontractor shall be bound by the terms and conditions of this Subcontract to prosecute the work without delay to its successful completion. - E.** Within sixty (60) days of receiving Subcontractor’s request for final determination of a Claim, Buyer shall provide to Subcontractor either (1) a written final determination on the Claim or (2) a notice of a reasonable date by which it will render its final determination on the Claim. Subcontractor agrees not to institute, and agrees to stay, any legal proceedings against Buyer with respect to a Claim unless and until Buyer has provided its final determination of the Claim or has failed to provide a final determination within 60 days of Subcontractor’s request for final determination or a reasonable date of which it has provided notice in accordance with this Paragraph, whichever is later.

If Subcontractor refuses an offer for ADR, Subcontractor shall inform the Buyer, in writing, of Subcontractor's specific reasons for rejecting the offer.
- H.** The Subcontractor shall proceed diligently with performance of this Subcontract, pending final resolution of any request for relief, claim, appeal, or action arising under or relating to the Subcontract, and comply with any decision of the Buyer.
- I.** Subcontractor acknowledges that the Prime Contract provides procedures for resolution of claims and disputes. Subcontractor agrees to submit all Claims to Buyer in such manner and time as will permit Buyer to fully comply with all such Prime Contract procedures and all provisions and requirements of the Contract Disputes Act, 41 U.S.C. §§ 7101-7109. Subcontractor agrees not to institute legal or other proceedings against Buyer until all applicable Prime Contract procedures and remedies have been exhausted. Subcontractor shall fully reimburse Buyer for all costs and expenses, including attorney fees and costs of legal action, incurred by Buyer in the enforcement of this Paragraph. Subcontractor shall indemnify and hold harmless Buyer from all liability, loss, damages, penalties, claims, costs, and expenses, including attorney fees and costs of legal action arising from or relating to Subcontractor's failure to comply with this Paragraph.

Subcontractor agrees not to institute, and agrees to stay, any legal proceedings against Buyer arising from or relating to a Claim by Subcontractor involving, in whole or in part, acts, errors, and/or omissions of the Government, its employees, officers, agents, or representatives until all proceedings between Buyer and the Government are final and complete. Accordingly, Buyer and Subcontractor shall use their best efforts to resolve any contractual issue in controversy by mutual agreement, subject to and consistent with the "Claims and Disputes" Clause of this Subcontract. Issues of controversy may include a dispute, claim, question, or other disagreement. The parties agree to negotiate with each other in good faith, recognizing their mutual interests, and attempt to reach a just and equitable solution satisfactory to both parties.
- B.** If a mutual agreement cannot be reached through negotiations within a reasonable period of time, the parties may use a process of alternative dispute resolution (ADR). board comprised of independent experts, or a company with specific expertise in conflict resolution or expertise in the specific area of controversy. The neutral party will not render a binding decision, but will assist the parties in reaching a mutually satisfactory agreement. Any opinions of the neutral party shall not be admissible as evidence in any subsequent litigation proceedings.

- C. Either party may request that the ADR process be used by making a written request to the other party. A voluntary election by both parties is required to participate in the ADR process. The parties must agree on the procedures and terms of the process, and officials of both parties who have the authority to resolve the issue must participate in the agreed-upon process.

“Electronic Funds Transfer (EFT) indicator” means a four-character suffix to the unique entity identifier. The suffix is assigned at the discretion of the commercial, nonprofit, or Government entity to establish additional System for Award Management (SAM) records for identifying alternative EFT accounts (see subpart 32.11) for the same entity.

“Registered in the System for Award Management (SAM) database” means that —

1. The Subcontractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, the Contractor and Government Entity (CAGE) code, as well as data required by the Federal Funding Accountability and Transparency Act of 2006 (see subpart 4.14), into the SAM database;
